Apollo After School

EXTENDED DAY PROGRAM

Registration
is Open!

Homework

Enrichment

Fitness

Snacks

Mon Science Club

Parachutes, spaceships, lasers, hadron colliders - we all know that science is a subject that's just for the cool kids (like you, of course!). The good news is that science is easy and incredibly fun to start practicing! Students in Apollo Science will learn how to ask the questions that are the beginning of all scientific discoveries, how to make hypotheses, and of course the fun part – testing them to see how they work. Through a hands-on and exciting curriculum, this club will help your child become more curious and have a deeper understanding about how the world works.

Tue Arts & Crafts

In Arts & Crafts Club, young Apollo students will learn many techniques to turn their ideas into reality under the guidance of our Apollo staff. Club members will use their creativity and imagination to make many objects for gifts and decorations.

Wed Super Smiley Face

Super smiley face is all about social skills, feelings, friendship, and self awareness. Kindness and generosity are two of the strongest traits in building and maintaining friendships!

Thu Fun Math Club

Math is fun – we're not just saying that, let us show you! Our math enrichment club uses a variety of games and hands-on activities to help improve our students' understanding of this critically important subject. Our curriculum emphasizes how math relates to creativity and everyday life, whether it is the geometry of creating their personal starship or in saving money for a trip to the theme park.

Fri Dance

Students will dance the afternoon away to kids bop favorites. Give your child the opportunity to get their energy out before going home for the night!
