1. Ms. Lukic explained what the PAC is to the parents. Parents asked how many students at Beard are low income.

5. Parent and staff were trying to brainstorm ideas on how to get more parents to come to PAC meeting (change time of meeting, have it after another meeting in the morning, do not schedule two parent meetings at the same time). Parent did state that she received agenda, Class Dojo notices and posts on social media regarding the meeting.
6. Music programs, Urban Gateways, field trips are some of the activities that can be provided through the PAC (these activities also benefit attendance as well). Parent trainings as well.
7. Parents are concerned about students that are in a half a day program and how parents can attend meetings.
8. Parents would like people to organize activities for the parents (play dates in the park). Parents would like a facilitated play date from the staff or a cps vender consultant. Parents will look for someone that could come for free to the school to help facilitate a play date.
9. Parents would like an explanation of arrival and dismissal procedures for preschool (signing in and out).
10. Ms. Lukic did continue through the agenda and continued to answer questions from the parents.
